## Embodyment, Moving On

you let me go - warmly turned my back - growing and setting out - boldly

i'm making up for lost time coming home

and i swear it's true i need you

so take me back - hoping abandon ship - learning drop my guns - open tear my core - broken

i'm making up for lost time coming home

don't break my neck hold your own

drink in deep cherish breath moving on

and i swear it's true i need you and you swear it's true we're never through

build this up - stronger hold you close - always
