

Embrace, Deliver Me

Deliver Me

I wish, I had a time when I could do all this
Just give me one last wish,
and make it come true so I get a rest

I wish I had you on my side,
I miss my life just being a ride
I wish I'd seen you in July,
I'd say it's time that you

Deliver me,
now I know what being without you means
Now now now,
won't you come deliver me,
and come and take me where you're going to be

I need more time,
to clean my system of it's lows and highs
With your little white lies,
you used to shine but now I see your disguise
