

# Embraced, Within Me

Lost in myself thoughts goes around  
Floats in a mind hard to understand  
Paralyzed by dreams impossible to reach  
Far away but yet so near

A burning light far within me  
I want to burn but it might die  
Disappointed at life I struggle on  
I reach out far, as far as I can get

I want to get up start burning again  
Somewhere far away it's still glowing  
But the fire that once burned  
Is now cold and dead  
I have to bring it back to life  
Get a grip climb up again

A burning light far within me  
I want to burn but it might die  
Disappointed at life I struggle on  
I reach out far, as far as I can get

I tumble in the dark, trying to get a grip  
A grip of life, I want to turn right

A burning light far within me  
I want to burn but it might die  
Disappointed at life I struggle on  
I reach out far, as far as I can get
