Embraced, Within Me

Lost in myself thoughts goes around Floats in a mind hard to understand Paralyzed by dreams impossible to reach Far away but yet so near

A burning light far within me I want to burn but it might die Disappointed at life I struggle on I reach out far, as far as I can get

I want to get up start burning again Somewhere far away it's still glowing But the fire that once burned Is now cold and dead I have to bring it back to life Get a grip climb up again

A burning light far within me I want to burn but it might die Disappointed at life I struggle on I reach out far, as far as I can get

I tumble in the dark, trying to get a grip A grip of life, I want to turn right

A burning light far within me I want to burn but it might die Disappointed at life I struggle on I reach out far, as far as I can get
