

Embraze, Close My Stage

This is day for something new
I have changed more than you
And my hands haven't hurt
Anyone like you

It takes a long time to forget
What you wanna leave behind
You found me but I found nothing

I'm waiting for the day
And I'm waiting for the night

It makes you cry
It takes long time to see
What is behind all this
And after all you have to leave all this
It makes you cry

You hold me all the time when you should cry
I'm so close but my thoughts are so far away
Take off my mask and close my stage
When I'm too weary of all this
