

EMD, I Lied

I never knew it could feel this way
I never thought you would walk away
When it was over you called late nights
And you said, do you miss me
Second thoughts haunting you at night
Baby do you regret that you let it go
If you doubt what you did was right
You should know
That I lied
When I said Im over and done with you
I lied
When I said it didnt hurt
I lied
Ive got a piece of you in my soul
I really tried I was left in the cold
I didnt know it could be this strong
Now I cant let it go
And I lied
When I said Im over and done with you
I lied
When I said it didnt hurt
I lied
I lost my course
And my lifes too short
To deny how much you mean to me
I leave my pride
Yeah I let it slide
And I let you know
That I lied
When I said Im over and done with you
I lied
When I said it didnt hurt
I lied
