

Emerson Drive, He Hopes She Knows

He's workin the late shift tonight
But his thoughts are not there.
There's a girl he's missing her
He's got some feelings he needs to share.
No matter what he does
He just can't forget The times they had
And the special night they met.

CHORUS

And he hopes she knows that there's nothing in the world
that he wants more than the love of that sweet girl.

She thinks she's the lucky one
But he thinks differently to be with her he'd give anything
He just wants her to see now that he's found her there's nothing more he needs
He can't wait to see where their love leads

REPEAT CHORUS 2 TIMES
