

# Emerson Drive, I See Heaven

I've waited all night for this moment  
To watch the day kiss the darkness goodbye  
And I barely remember falling asleep  
But the minute I open my eyes  
Every dream comes true  
When I look at you

## CHORUS

I see heaven  
I see an angel  
Lying here next to me  
Bring out the best in me  
Hearts entangled, wrapped in forever  
This close together  
Me holding you, you holding me  
You opened my eyes, baby I see  
Heaven

I reach up to open the window  
Let the cool air dance its way through  
The sun and the sky is so blindingly bright  
But it doesn't compare to you  
Girl, I'm lost in time  
As I watch you shine

## REPEAT CHORUS 2 TIMES

I've waited all night for this moment
