

Emerson Drive, It's All About You

I told you when I met you I'd do anything it took to get ya
Bet you never thought I'd ever take it this far
I work two jobs, but that alright, made up your mind
To dedicate my whole life to your life, baby your a superstar

Chorus

****It's all about you**
Everything that I do
It's all about you
My mission in life
My purpose on earth
to make sure you get all the love you deserve
It's all about you******

I buy a dozen roses, box of chocolates, get you tickets to the opera
Pavarotti and the monster truck show
I'll take you on a caribbean cruise, buy you hundred pairs of new shoes
Dress you up in diamonds, pearls, and all that stuff

****Chorus****

Do what you gotta do, don't worry about me
as long as I got you, that's all I need
Aint no one no where no how no way no man
Gonna work harder for you any day baby, every day

****Chorus****

It's all about you
