

Emerson Drive, Light Of Day

I can't believe you're here with me
Inside this dream come true
I'm so gone so far
Lost in your arms in you
Here we are again
Between the darkness and the light
Hoping this moment
Could be frozen in time

CHORUS

I don't want this night to slip away
I just wanna lie in your embrace
Never see the sun come up
Stay lost in your love
I wanna feel you brush against my skin
I don't want this feeling to end
Wanna see the moon dance on your face
I could lie here forever
And never see the light of day

Dawn is closing in stars surrendering
I'm still giving into you
As the light arrives
Peeking through the blinds
All that's on my mind is you
I'll have to start the day
Like all my other days begin
Waiting on the moment
When I can say again

REPEAT CHORUS TWO TIMES

Never see the light of day

Wanna get lost in you
Wanna stay lost in you
Yeah....
