

Emerson Drive, Simple Miracles

When I got up this morning you were still asleep
And the rain tapped on my window as if reminding me
To make out a list of every single gift
That you give me every day

CHORUS:

It's the dream that never dies
It's the wonder in your eyes
It's the magic in your touch
Every star and every wish
I wake each day and live
A life that's filled with simple miracles

Sometimes in the madness I tend to forget
And I take your love for granted when I should
Hold you close instead
But let me say right now so there is no doubt
All the things you are to me

Repeat Chorus

And as time goes by the more that I find
That my life is in much bigger hands than mine

Repeat Chorus
