

Emerson Drive, Testify

Boy and girl fall in love, startin' out just enough
Pocket change lean green, first and last security
Newlyweds, overheads all we really had was each other
All of the family and most of our friends
Said it was over before it began
As time goes on we're provin' em wrong
We're still together

Real love will survive
Devil of defeat better step aside
Real love will survive
If you need a witness me and my little Mrs.
We can testify

Made a move neighborhood, lookin' up lookin' good
Saving money everyday, gettin' out a layaway
Baby boys, lots of toys man I gotta say this is livin'
No I'm not sayin' it's been perfect at all
We've had our times we hit the wall
We acted on up yeah we knocked off the dust and kept on diggin'

Real love will survive
Devil of defeat better step aside
Real love will survive
If you need a witness me and my little Mrs.
We can testify

Real love will survive
Devil of defeat better step aside
Real love will survive
If you need a witness me and my little Mrs.
Yes, if you need a witness, me and my little Mrs.
We can - testify
