## Emil Bulls, The Coolness Of Being Wretched

Whiskey vine dope stale cigarette smoke mud blood beer stale cigarette smoke......
I'm so mean I make medicine sick alright
Don't waste all my batteries killer of my fantasies
I'm drowning taking hold of me
I'm loosing my grip on reality

I've lost all my fantasies And I've got the vigor of a five second porno stream

A monster creeps inside of me It's sucking all my energy I'm aching for serenity Corrosion of mind takes hold of me

I've lost all my fantasies
And I've got the vigor of a five second porno sream
Deteriorated to the level of a dumb beast
I beg your pardon but that's the real me

I'm so mean and evil I make medicine sick A fool creep burning effigy Behaving rudimentary Makes it all easy Makes living easy

Whiskey vine dope stale cigarette smoke mud blood and beer I'm so mean I make medicine sick alright
