

# Emilia, Twist Of Fate

Twist Of Fate

This is my free will

This is my song

I'm telling you boy

This is so wrong

You can't go on like this

Playing this game

'Cause all it will bring

Is hurt and pain

Give me strength God

Give me faith

'Cause I will need you now

A twist of fate

I can't think straight

When I'm walking out that door

I'm not coming back no more

A twist of fate

It is too late

I don't care what you will do

'Cause I'm not

coming back to you

A twist of fate

Turn on the the big red light

'Cause here I come

Gonna tell the world

He's the greatest scum

When you default my love

I told my heart

That if I fall again

I'll leave this part

Give me....

Chorus.

Bridge:

Are you lonesome?

look at your past

What did you do to make it last?

I am happy,

'cause I am free

It's the way, I wanna be

I know that you'll be missing me

You'll be missing me
