

# Emilia, What About Me?

Everything about you was so  
special  
I thought our love would last  
Standing by your side  
Making me so strong  
'Cause you were my man  
Whom I will always love

Chorus:  
What about me?  
What about us?  
What all the things you said,  
What about me?

What about me?  
What about love?  
What about all the things we had,  
What about me?

Lies and secrets came into our  
lives  
Our love faded away  
You closed the door  
Leaving me behind  
But what means a farewell?  
Is this the end?

Chorus

Come summer with joy  
To ease my pain  
Come birds in the tree  
To sing me a song  
Come waves of the sea  
To take me away  
Come angels  
to be by my side
