

# Emilie Simon, Blue Light

I'm the moon and I can give you  
Everything if you want me to  
From the sky I watch over you  
Don't be blind, I will help you

I'm the moon  
(In the sky  
Just follow the blue, blue light)  
I'm the moon  
(In the sky  
Just follow the blue, blue, blue light)

When you're down, when you feel alone  
When your love and happiness are gone (blue light)  
Deep inside- there is a blue, blue light  
The moon is with you

I'm the moon  
(In the sky  
Just follow the blue, blue light)  
I'm the moon  
(In the sky  
Just follow the blue, blue, blue light)

(Just me  
Follow me)

Just follow the blue, blue light  
(In the sky  
Just follow the blue light  
In the sky  
Just follow the blue light)

I'm the moon  
I take care of you  
Just follow the blue light  
Take care of you  
Just follow the blue light
