

# Emily Harder, Find my way

Vs. 1

Whatever

You said you can and I could never

I'm not buying into that

Vs.2

Won't fake it

When you win, I'll celebrate it

Though it's not easy, that's a fact

Pre-Chorus

I finally figured it out

'Cause you were born to be the best

Does not make all of us the rest

Yeah-ee-yeah

Chorus

There's more than enough stars in the sky

More than one dream will find wings and fly

More than one prayer will reach heaven tonight

And I know, I know, I know, I know

Everything is goin' be alright

Everything is gonna be okay

I will find my way

Vs. 3

Frustrated

Won't let myself be intimidated

By anybody, any more

Vs. 4

Ordinary

It's not what I want to carry

Got to be something more for sure

Pre-Chorus

I finally figured it out

'Cause you were born to be the best

Does not make all of us the rest

Yeah-ee-yeah

Chorus

There's more than enough stars in the sky

More than one dream will find wings and fly

More than one prayer will reach heaven tonight

And I know, I know, I know, I know

Bridge

A million people reaching for one prize

The price is high, see it in their eyes

When will they realize

When will they realize

Chorus 2

There's more than enough stars in the sky

More than one dream will find wings and fly

More than one prayer will reach heaven tonight

And I know, yeah I know,

Yeah yeah

There's more than enough stars in the sky

More than one dream will find wings and fly

More than one prayer will reach heaven tonight

And I know, I know, I know, I know

Everything is goin' be alright

Everything is goin' be okay

I will find my way
