

Emily Harder, Forgotten how to breathe

VERSE 1

Will you ever let me inside
To hear the thoughts you keep tryna hide
Im so lost way back here without you
Im gonna have to walk away pretty soon

CHORUS

I dont understand; I dont wanna know
I used to be able to read you so well
I cant even think ; Something has changed
Now Ive forgotten how to breathe

VERSE 2

Its not going to be easy to explain
But I couldnt leave without saying goodbye
Its hard on me to stay so calm like this
Theres so much about you that Im gonna miss

CHORUS

I dont understand, I dont wanna know
I used to be able to read you so well
I cant even think, something has changed
Now Ive forgotten how to breathe

BRIDGE

I should never think about the past no no
It was obvious the way you felt
I couldnt live without you without you
Id do anything for you
Dont you know that

CHORUS x3

I dont understand; I dont wanna know
I used to be able to read you so well
I cant even think ; Something has changed
Now Ive forgotten how to breathe
Im not living with regret
Cuz i did everything for you
Its not making sense in my head
And i dont know what is true
I dont understand; I dont wanna know
I used to be able to read you so well
I cant even think ; Something has changed
Now Ive forgotten how to breathe
