Emily Harder, Got a dream

I got a dream that's what I say like every day at school
And every day I say once again I wont this one to come true
So I sit in class and think of any way that I can make this work
Though I know it aint happenin' I still don't though it in the dirt
Chorus:
Cause I know that I have dreams that shoot to the sky and fly past the stars and go
straight 'round the universe
And I make it work
And I know that my life was made just for me and it's so unique and I don't have to
Worry
Anymore (2x)
As we drive down the streets
I see a million things that I think I need
Tryin to make myself fit make
makes me feel so incomplete
Chorus:
Cause I know that I have dreams that shoot to the sky and fly past the stars and go
straight 'round the universe
And I make it work
And I know that my life was made just for me and it's so unique and I don't have to
Worry
Anymore (2x)
I know that I have big dreams
and I know that I am unique
and if I stay grounded
then I know I'll stay just who I am
oh oh
Cause I know that I have dreams that shoot to the sky and fly past the stars and go
straight 'round the universe
And I make it work
And I know that my life was made just for me and it's so unique and I don't have to
Worry
Anymore(2x)
Cause I know that I have dreams that shoot to the sky and fly past the stars and go
straight 'round the universe
And I make it work
And I know that my life was made just for me and it's so unique and I don't have to
Worry
Anymore(3x)
