

Emily Jane White, Two Shots To The Head

I don't wanna break my back, you seem so funny when, nothin's goin' on,

I know you'll drive away, out of here I know you will,

Always be, be.

Cause I really loved you, you know I did, told you over and over again

I know you'll drive away, out of here I know you will, always be..

Two shots to the head, now you're runnin' runnin' fast..

Two shots to the head, now you're runnin' runnin' fast

Cast a shadow on your grave,

Hold the flowers to your name,

Cast a shadow on your grave,

Hold the flowers to your name.
