

# Emily King, Hold Me

I just like you thank u for everything u are  
And everything u do, it reaches out so far  
Never change it for no one, don't compromise yourself  
There's just so much of u to love  
And its just like magic,  
U keep calling, calling over and over again yea  
Keep me faithful, keeping me running and in love  
So come and hold me darling, cause u captured me,  
And ohh come and love me darling, cause u move me  
U make me glad to be here, u help me to believe  
That I can do anything, if I just set my heart free  
And ohhh darling, I just, need u,  
I need u to know that I care-  
U helped me out of my dark place thought I would never get out  
U told me that you would keep me safe and not to worry, cause  
Things were rough but u never broke down.  
So come and hold me darling, cause u captured me,  
And ohh come and love me darling, cause u move me  
[x3]  
U helped me out of my dark place thought I would never get out  
U told me that you would keep me safe and not to worry, cause  
Things were rough but u never broke down.  
And no one else could ever make me feel this way,  
Since I met you darling my whole life has changed  
So want u do me one thing, won't u  
Come and hold me darling, cause u captured me,  
And ohh come and love me darling, cause u move me
