

Emily Lily, Scream

scream!

I usually have you!

I don't have the stress!

I can scream and laugh

With you!

Dance

I will be singing

You usually know me!

You usually know me!

You usually know me!

You usually know me!

You usually know me!

We can be mad! To dance at the scene! To scream, to laugh! To joke!

We will prove that we are crazy! We won't slow down blunt!

It will be a party! Party! Party to the max! We will rock out!

For a moment we will slow down bluntly. We will stop dancing. But it is only a moment! And farther!

It will be rock style! Crowds of fans! Shouts! And it is about it!

We will be mocking ourselves! But it is super! It will be really cool!

You usually know me!

You usually know me!

You usually know me!

You usually know me!

You usually know me!

And you know that I'm the same!

Always already at the scene!

Crazy!

And I can state that ...

For me so you like, because you know that nothing will change me!

I'm feeling free!

I feel that I live!

Excuse me,

Well, now of carbon monoxide!

Well, now of carbon monoxide!

Well, now of carbon monoxide!

We can be mad! To dance at the scene! To scream, to laugh! To joke!

We will prove that we are crazy! We won't slow down blunt!

It will be a party! Party! Party to the max! We will rock out!

For a moment we will slow down bluntly. We will stop dancing. But it is only a moment! And farther!

It will be rock style! Crowds of fans! Shouts! And it is about it!

We will be mocking ourselves! But it is super! It will be really cool!

We will be mad!

We will be laughing!

We will be dancing!

We can be mad! To dance at the scene! To scream, to laugh! To joke!

We will prove that we are crazy! We won't slow down blunt!

It will be a party! Party! Party to the max! We will rock out!
