

Emily Osment, Love Sick

You're so mono
Together we could be stereo, love
You look so low together we could get high, hi-fi, stereo
Boom boom supersonic
Boom supersonic boom
You make my heart go
Boom boom
Boom boom supersonic
Boom supersonic boom
You make my heart go
Supersonic boom supersonic boom

You got me high
You hot me low
You make me go out of control
I like the way we flow
Let's go go go get me that sensory overload
Got me got me love got me love got me love sick
Got me got me love got me love you got me love sick
Turn it up you turn it up

You're the needle scratching on my vinyl
Gambling with that delicious thing
It take two to dance four on the floor heart like an 808
Boom boom supersonic
Boom supersonic boom
You make my heart go
Boom boom
Boom boom supersonic
Boom supersonic boom
You make my heart go
Supersonic boom supersonic boom
