

Eminem, Breaking News (skit)

Aight, now I'm 'bout to show you somethin'

What? What?

Got a breaking news and it turns on this week in music

Detroit rapper Eminem, in a stunning move, is releasing an album (Shh)

In which he is actually trying to cancel himself

Man, what the fuck?

Right now at this hour we got protestors lining the streets downtown

Where Kimberly Gill is standing by, KG

Hi, Devin, we are outside Eminem's mom's spaghetti

Where, as you can see behind it

People are definitely upset over Eminem's new album

And are actually calling to boycott the rapper

For songs that include insensitive comments about little people

People with mental disabilities, transgender rights and the first commandment (Hahahaha, ha)
