

Eminem, Nowhere Fast (ft. Kehlani)

sandy hook, stoneman Douglas
Another loen-wolf gunman
Sometimes i don;t know what this
world has come to
it's bowing up
this whole country is going nuts
and te NRA is in our way
they're responsible for this whole production
they hold the strings to control the puppets
and they threaten to tak donor bucks
so they know the government won't do nothing
and no one's budgin
gun owners clutching
their loaded weapons
they love their guns more than our children
I think another one just entered in our building
and we'll be

ashes blowin in the air
I was on fire but we don't care
wasted youth, always on the road
never looking back
and we're never getting old
cause the skies are black
but our heart's made of gold
fuck doing what you're told
we're going nowhere fast

I feel sorry for this beat
sympathy pains for this track
this road is taking me back down memory line with this rap
I could still look out in this crowd
be wild and be takin' aback
I'm simply stating a fact
I had Wembley stadium packed
but now we're on a path
headed to nowhere
and fast
another terrorist attack
like a tariff
blows half of Medison Square up, alas
we perish, in the blast but that isnt't scaring us
we pass knowing we're fearless
cause we're just

ashes blowin in the air
I was on fire but we don't care
wasted youth, always on the road
never looking back
and we're never getting old
cause the skies are black
but our heart's made of gold
fuck doing what you're told
we're going nowhere fast
