

Eminem, The Kids(Explicit)

(Teacher Sings)

And everyone should get along..

Ok children quiet down, quiet down

Children i'd like to introduce our new substitute teacher for the day

His name is Mr. Shady

Children quiet down please

Brian don't throw that.. (SHUT UP!)

Mr. Shady will be your new substitute while Mr. Kaniff is off with pnueomonnia

(HE'S GOT AIDS!)

Good luck Mr. Shady...

(Verse 1-Eminem)

Hi there little boys and girls (FUCK YOU!)

Today we're going to learn how to poison some squirrels

But first, i'd like you to meet my friend Bob (Huh?)

Say Hi Bob, ("Hi Bob")

Bob's 30 and still lives with his Mom and he don't got a job

Cause Bob just sits at home and smokes pot

But his 12 year old brother looks up to him an awful alot

And Bob likes to hang out at the local waffle spot

And wait in the parking lot for waitresses off the clock

When it's late and the lot gets dark and he fakes like he walks his dog

Drag 'em in the woods and goes straight to the choppin' block

And even if they escape and they got the cops

Ladies would all be so afraid, they would drop the charge

Till one night Miss. Stacey went off the job

When she felt someone grab her whole face and said not to talk

But Stacey knew it was Bob and said knock it off

But Bob wouldn't knock it off cause he's crazy, an off his rocker

Crazier than Slim Shady is off the locker

You couldn't even take him to Dre's to get Bob a doctor

He grabbed Stace by the legs, he chopped 'em off her

And dropped her off in the lake for the cops to find her

But ever since the day Stacey went off the wander

They never found her, and Bob still hangs at the waffle diner

And that's the story of Bob and his marijuana

And what it might do to you

So see if the squirrels want it, it's bad for you

(Chorus)

See children, drugs are bad

And If you don't believe me, ask ya Dad

And If you don't believe him, ask ya Mom

She'll tell you how she does 'em all the time

So kids say no to drugs

So you don't act like everyone else does

And there's really nothing else to say

Drugs are just bad mmm k...

(Verse 2-Eminem)

My penis is the size of a peanut, Have you seen it?

Fuck no you ain't seen it, it's the size of a peanut (Huh?)

Speaking of peanuts, you know what else is bad for squirrels?

Ecstasy its the worst drug in the world

If someone offers it to you, don't do it

Kids 2 hits'll probably drain all your spinal fluid

Cause spinal fluid is vital, you won't get it back

So don't get attached, it'll attack every bone in ya back

Meet Zack, 21 years old

After hanging around with some friends at a Frat party

He gets bold, and decides to try five, when he's bribed by five guys

And peer pressure will win when everytime you try to fight it

Suddenly, he starts to convulse

And his pulse goes into hyperdrive, and his eyes go back in his skull

His back starts ta...look like the McDonald's Arches

He's on Donald's carpet, laying horizontal barfin'

And everyone in the apartment starts laughin' at him

"Hey Adam, Zack is a jackass, look at him"
Cause they took it to, so they think it's funny
So they're laughin' does basically nothing
Except maybe wastin' your money
Meanwhile, Zack's in a coma, the action is over
And his back and his shoulders, hunched up as if he was practicin' Yoga
And that's the story of Zack, the ecstasy maniac
So don't even feed that to squirrels class, cause it's bad for you
(Repeat chorus)
(Verse 3-Eminem)
Last but not least,
One of the most humungous problems among young people today, is fungus
It grows from cow manure, They pick it out, wipe it off, bag it up,
and you put it right in ya mouth and chew it...Yum Yum
Then you start to see some dumb stuff
And everything slows down when you eat some, of um...
And sometimes you see things that aren't there (Like what?)
Like fat woman in g-strings with orange hair
(Mr. Shady what's a g-string?)
It's yarn Claire
Women stick them up there behinds, go out and wear 'em (Huh?)
And if you swallow too much of the magic mushrooms
Whoops, did i say magic mushrooms, i meant fungus
Ya tongue gets all swolled up like a cow's tongue (How come?)
Cause it comes from a cow's dung (Oh)
See drugs are bad, it's a common fact
Wit ya Mom and Dad, well that's all i'm good at (Ert)
But don't be me, cause if ya grow up and ya go OD
They're gonna come for me and i'mma have to grow a goatee
And get a disguise and hide, cause it'll be my fault
So don't do drugs, and do exactly as i don't, cause it's bad for you
(Repeat chorus) while teacher says :
come on
put that down
u can ask
she will
say no
like i do
thats right
(Teacher & Classmates)
Come on children, clap along (SHUT UP!)
Sing along children (SUCK MY MOTHERFUCKING DICK!)
Drugs are just bad, drugs are just bad (SOUTHPARK GONNA SUE ME)
So don't do drugs, tell 'em save more for me (GOD DAMNIT!
MUSHROOMS KILLED KENNY)
(Pltttt OOOO *fart noises*)
la la la la!
