

Emirsian, Still You

We were dreamers
Caught up in fever
Who still feels it
When others are talking love
Each way I turn
The sense of you surrounds me
every step I take
on my way
In all I do
I think of you. think of you
Away from you
I still think of you think of you
I dont want to
Dont want to think of you
I dont want to
Think of you think of you
No more
Take all you can find
Anyway you want to
Easy as you can
Leave something behind
So I can move on
Take off to higher grounds
Fly free
Off and away
From ingenuity
In all I do
I think of you. think of you
Away from you
I still think of you think of you
I dont want to
Dont want to think of you
I dont want to
Think of you think of you
No more
