

# Emm Gryner, Let It Snow

snow angel in the dark  
a rally no one hears about  
she's driving through the snow  
forgetting all the kids she used to know  
we're back in '69  
she hears some fresh faced-kid declare  
that she wasn't quite alive  
she knows were a bit of deep shit this time  
she said

oooh I came for peace  
and walked away with nothing  
oooh I'll try at least and maybe I'll learn something  
let it snow let it go  
and see you in the springtime  
let it snow let it go  
let it snow

better wear your vest  
chain up your new 4x4  
we're sliding on thin ice  
and strangers give us all good advice  
truth is burning down  
she melted all the ice downtown  
with million mp3's  
she's still looking for a way to be free

oooh I came for peace  
and walked away with nothing  
oooh I'll try at least and maybe I'll learn something  
let it snow let it go  
and see you in the springtime  
let it snow let it go  
let it snow

let it snow let it go  
and see you in the springtime  
let it snow let it go  
let it snow
