

Emm Gryner, Saturday Night

Quiet sirens never get it on
Turn the lights off and summer love is lost
Well it's just the way you said it babe
Just like any other scene
And I laugh over letting go, 'cause you're still here you know
My friends gone to the other side and he burned his indie rock sunrise
He's looking past me all the time but I don't care

'Cause Saturday night ain't nowhere and I want to leave with you
'Cause Saturday night ain't nowhere and I want to leave with you
Tonight, tonight while I got everything in sight
Forget it on the dance floor 'cause it's alright

Quiet sirens never get it on
Quiet sirens never get it on

I'm a little more invisible each day
Now I'm shaking in the backyard and screaming out your name
My friends gone to the other side and he burned his indie rock sunrise
He's looking past me all the time but I don't care

'Cause Saturday night ain't nowhere and I want to leave with you
'Cause Saturday night ain't nowhere and I want to leave with you
Tonight, tonight while I got everything in sight
Forget it on the dance floor 'cause it's alright

And Saturday night
Saturday night
Saturday night

Quiet sirens never get it on
Quiet sirens never get it on
Quiet sirens never get it on

Saturday night
