Emma Bunton, Better Be Careful

Better Be Careful I was going crazy Seeing you around And baby you're asking Are we getting down

Cos I see you looking over at me And I know you really like what you see, yeah yeah yeah

You better be careful You better beware Cos I'm on the lookout baby And I will be there

Something in your eyes, yeah yeah Something in your eyes Something in your eyes, yeah yeah Something in your eyes

Suddenly I realized I didn't know your name But honey when I look at you I wanna play a game, yeah yeah

Cos I see you looking over at me And I know you really like what you see, yeah yeah yeah

You better be careful You better beware Cos I'm on the lookout baby And I will be there

You better be careful (you better be careful) You better beware (you better beware) Cos I'm on the lookout baby (yeah) And I will be there

Something in your eyes, yeah yeah Something in your eyes Something in your eyes, yeah yeah Something in your eyes

Now that we have started Things we didn't plan If you wanna play now Catch me if you can

Cos I see you looking over at me And I know you really like what you see, yeah yeah yeah (Yeah yeah yeah)

You better be careful (you better be careful) You better beware (you better beware) Cos I'm on the lookout baby (yeah) And I will be there (I'll, I'll be there)

You better be careful (you better be careful) You better beware (you better beware) Cos I'm on the lookout baby (yeah) And I will be there (I'll, I'll be there) Yeah yeah yeah

You better be careful (you better be careful) You better beware (yeah yeah yeah) Cos I'm on the lookout baby And I will be there (I'll, I'll be there) Yeah yeah yeah (repeat to fade)
