

Emmanuelle Seigner, Ever together

I see you in my dreams
Wonder what you've become
You were so young and mean
You left me oh so numb
And have the things you said
I never understood
And all the books you've read
They never did no good

I can't imagine how
It doesn't Happened now
I can't imagine how
We were ever ever together
I can't imagine how
Doesn't too real somehow
I can't imagine how
We were ever ever together

I used to cross your name
You got me so out type
To maybe something change
Then I, I didn't give a fuck
And when you put me down
I didn't hear a word
And when I think back now
You sound that so observed
