

EMMI, One Time

Well you said
Well you said
You said that life was easy

And I begged
And I begged
For you to come and show me, yeah

Free my mind
Get it untied
Free my mind
Get it untied

Cause only this one time
We can make it right
And only this one time
We can make it right

Tie yourself in your love
Take a free fall baby
Dont look back when you run
Fly away its easy

Free your mind
Get it untied
Free your mind
Get in untied

Cause only this one time
We can make it right
And only this one time
We can make it right
And only this one time
We can make it right

Ill wait for you
Ill wait for you
