EMO, On Me (feat. Marissa)

Lights come on when I'm around you
You got everything I need
So baby follow my lead, yeah
So let me, try to achieve
Your love your love girl
Why don't we turn out all the lights now
Yeah I'm all about the dark love
Let not think about the outcome
Coz I'm gonna put the blame

On me on me
Don't you worry
It's on me babe
All i wanna
Do is move with you
So baby let me put the blame
On me on me
Don't you worry
Its on me babe
All I wanna is
Just fall in love with you

I got everything you need
I got you pulling at the sheets
Ill make you drop to your knees
To get me to get me boy
So keep turning all the lights out
Gonna make you fall in love love love
Please don't think about the consequences
Coz now we gotta share the blame

On you on you
Don't you worry
It's on me baby
All I wanna do is
Fall in love with you
Fall in love with you
