

# Emo Side Project, A Cold Summer

it's not fair  
that im here and youre so far away  
im so scared with you there  
and me so far away from you

every time the sun does rise  
i dream i stare into eyes  
and i wish that you were here right now  
if only i had one more kiss  
if only i had one last wish  
id make that wish on you

it's not fair to feel what  
im feeling now  
but i guess  
lifes not fair  
cause youre still far away from me

every time the sun does rise  
i dream i stare into eyes  
and i wish that you were here right now  
if only i had one more kiss  
if only i had one last wish  
id make that wish on you

na na na na na

its not fair  
that i cant remember  
the scent of your hair  
it's not fair  
that i'm so far away from you
