

Emo Side Project, Another Broken Heart

another night without you
i have spent alone again
another day without you and id cry
i swear ill try to be right there
beside you by your side

give me one last chance
let me take this last dance
for a while ill see you smile
make you feel inside
that feeling you can't hide

as i lye in bed thoughts of you
run through my head
i take a look you
and it feels as if i can fly

round and round we turn
my heart you let it burn
what happened to my head
feels just like Im dead
