

Emo Side Project, Blue Skies

the movies barley loud enough
id rather hear your voice
this silence it breaks my heart
lying arm and arm upon my couch
thinking of things i could say to you
the day is new
i wish you would speak to me
it seems like forever since you have
make it last forever dont let it die
that would make me sad

for this moment ill lay down and cry
time cannot be stopped
although im sure i tried
you looked up and glanced at me
i was nervous you smiled
moments arent meant to last so long
or feel so well now

you closed the gap between us
and put your hands on mine
i really can't believe
this is happening to me
you're too good for me
im not made to be this happy

but thats all youve ever made me
you brushed the hair out of your face
and i could see your beautiful eyes
now as i kiss you, you lean on me
remind me why i feel the way i do

so lets sit back and watch the movie
played in reverse
cause i only feel like watching you
and ill make sure to keep my arms
around you
