Emo Side Project, Forever And More

just one more day with you i'd say anything to make you stay you know i love you, you know you make me the happiest person there ever will be!

last night i had the bestest dream it involved you and me swimming, and singing, and cuddling, forever and more and then you looked at me with those eyes and a smile that could almost make me die you took my hand and held it, forever and more

today i had the bestest time you were always on my mind making me sigh and daydream, forever and more and then i thought of that pretty smile the one that always makes me wild and i'm happy and will be as long as i'm with you, oh

just one more day with you i'd say anything at all
