

# Emo Side Project, Lonely As The Sun

lonely as the sun  
catching nothing much for fun  
just a pleased moment spent in loneliness  
wailing westward winds  
sending messages i sent  
waiting only for the sounds of passer bys

what will i do if they catch me with you  
will they take you away  
how can i feel when  
theres nothing left thats real  
only sounds played with once in the sand  
lonely as the sun

my eyes can tell a tale  
of happiness that failed  
and drops of water wasted over me  
but here i am to say  
that there is a coming day  
where the happiness ive kept inside will show

lonely as the sun  
lonely as the moon  
lonely as the sun  
lonely as you...and me
