

Emo Side Project, Mist Of All This Sin

love seems so long ago
that i cant get it back again
like searching for a little light
in the mist of all this sin
fools love say a broken heart
what these words can amend
what people take away
in the mist of all this sin

i loved you till your dying day
and my love to you i'd send
but it's no good for me to live
in the mist of all this sin
