

# Emo Side Project, The Daydream Impression

you never know whats gonna happen you just hoping that everythings right  
you never can tell whos a good person whos gonna help you, whos gonna fight  
but being nice will get you rewarded and being a fool will only bring trouble  
so just be grateful for what you've got for what you don't have for what you want

you never even played along x3

you never know whos telling the truth whos telling you wrong and telling you lies  
you never can tell if she will call back when she slips out in the middle of the night  
and i can hear is blah blah blah and i can hear is blah blah blah  
so just be grateful for what you've got, for what you don't have for what you want...  
you never need me like i needed you see what breaking a heart does to you?  
its driving you crazy it's making you see what you did, was wrong to me

it's not fair to be here  
and have to face this, another year.  
and it only gets colder now  
only gets farther from the truth  
but we'll hope and we'll dream of the things we don't need  
but i'll applaud when your dreams don't come true

you never even played along x3

colorful kill is taking control of everything i am and everything i own
