Emperor, Funeral Fog

[Originally released by Mayhem in 1994 on the album "De Mysteriis Dom Sathanas".]

[5:12]

Every time this year
this dark fog will appear
up from the tombs it comes
to take one more life that can be near
In the middle of Transylvania
All natural life has for a long time ago gone,
it is thin and so beautiful
but also so dark and mysterious

Once again the priest is messing may the God bless us all The fog is here again that will complete this funeral From a place empty of life Only dead trees are growing here as it comes from a far Only dead trees are growing here

Funeral fog. <i>[4x]
