

# Empires, I Want Blood

I want blood, I want blood from you  
If it ain't your love, I want blood from you

Desperate and a little delusional  
You put my heart to grindstone  
I'm waiting anxiously outside your home  
Oh dear, the biggest of all fears  
You wish to hell I was not here  
You wish to hell and I appear  
Oh dear

I want blood, I want blood from you  
If it ain't your love, I want blood from you

Quiet now, you're sucking the charm out  
I tried the "get you to love" route  
But now the monster in rage holds me down  
Anger's a lesser disaster  
The truth is I've got a fever  
You scream insanity, I'll be right there

I want blood, I want blood from you  
If it ain't your love, I want blood from you  
I want blood, I want blood from you  
If it ain't your love, I want blood from you

Oh, we've got trouble now

I look for answers but there's nothing I will see  
No matter how far away, everywhere you seem  
A mirror arrangement in my eyes and you repeat  
And it tempts me to believe

And I want blood, I want blood from you  
If it ain't your love, I want blood from you  
Yeah, I want blood  
If it ain't your love (I want blood from you)
