

Empires, Keep The Mood

Oh, oh, we don't have to make this last
Oh, oh, most of what is good dies fast
They'll find us living in the mirror of mood
Naked, laughing as our minds come loose

It's gonna happen, we'll make it
We've got to feel it through the night
Hold your breath now, we'll get down
Keep the mood right through the night

The future, it never meant enough to me
I went there, I traded in my memory

It's gonna happen, we'll make it
We've got to feel it through the night
Hold your breath now, we'll get down
Keep the mood right through the night

It's gonna happen, we'll make it
We've got to feel it through the night
Hold your breath now, we'll get down
Keep the mood right through the night

All I want is here tonight
All I want is
All I want is here tonight
All I want is
All I want is here tonight
All I want is
All I want is here tonight
All I want is
All I want is here tonight
All I want is

It's gonna happen, we'll make it
We've got to feel it
It's gonna happen, we'll make it
But we don't have to make it last
Oh, oh, most of the what is good dies fast
