

Empires, Late Night Rendezvous

We're indiscreet
You look, I turn the other way to meet your ghost
'Til you come pushing me away
My favorite role, the late night meeting at your door
Nobody knows
And my good nature's indisposed

All of your lovers share their secret time
While I uncover all of their precious pride

Our rendezvous' known
Everyone's shaking to your name
Everyone's shaking to your name
Our rendezvous' known
They are shaking to your name
They are shaking to your name

And dim the light
I am a stranger passing by
You wear the heart of the unfortunate at night

All of your lovers share their secret time
While I uncover all of their precious pride

Our rendezvous' known
Everyone's shaking to your name
Everyone's shaking to your name
Our rendezvous' known
They are shaking to your name
They are shaking to your name

You shoot the moon
Watch it die, I'm hypnotized
A funeral show
Everybody knows something's going to get you tonight
Watch it die, I'm hypnotized
A funeral show
Everybody knows something's going to get you tonight
Something's going to get you tonight
Something's going to get you tonight

Our rendezvous' known
Everyone's shaking to your name
Everyone's shaking to your name
Our rendezvous' known
They are shaking to your name
They are shaking to your name
