## En Vogue, Million Different Ways

I hold you close right to my heart Plus from the past that sets you apart From all the rest, you are the best Come here, come on, give me a kiss

Remember all the fun times we shared Anticipating good times ahead Spending time with you, it's true There's nothing that I'd rather do

## Chorus

There's a million different ways to say I love you There's a million different ways to say I care for you There's a million ways to say I need you too There's a million different ways A Million different ways to say....

I like the way you satisfy me
I like the way you lectrify me
You can't ignore, I can't explain
I know we'll learn from every change

You make me laugh, You make me see me Falling in love with you, It's a dream I close me eyes, You're standing there With a smile that says you care

## Chorus

Dododoododoo...

Happy just to be here with you I don't know what I would do Without your love, without a clue You bring out the best, it's true

I can see you understand me My best friend, my cup of tea Don't ever change the way you are We fit just like a hand in

Chorus

I love you, baby
