

End Of Green, No Coming Home

No coming home at night,
Under dead city lights,
It's all coming down,
Dead sunset is born.

I can not sleep at night,
Another useless fight,
it goes on and on,
no new day will come.

Down the dead city lights,
Until the dark will rise.
I'm searching for more,
So cruel, my thoughts.

I find no sleep at night,
Another useless fight,
it goes on and on,
no new day will come.

Scared about all the things
That cover me in Live,
im on the only way,
I leave this word tonight.

Scared about all the things
That cover me in Live,
im on the only way,
I leave this word tonight.

No coming home at night,
Under dead city lights,
It's all coming down,
Dead sunset is born.

I find no sleep at night,
Another useless fight,
I'm searching for more,
So cruel, my thoughts.

Scared about all the things,
that cover me in live,
im on the only way,
I leave this word tonight.

Scared about all the things,
that cover me in live,
im on the only way,
I leave this word tonight.

And I wasted my ability,
I failed, my soul insanity,
I tried all ways - the last one is the way down.
And I'm tired of my useless being,
I failed, my soul insanity.
I tried all ways if the last one is the way down (home).
I'm leaving this world tonight.

I'm leaving this world tonight.
