

Endo, Beat Around The Bush

don't beat around the bush
bringin' me closer to here
taking me farther than near
insecure love fit commands
shovin' my face in the sand
stick it in 'em, i stick it in 'em
to make 'em feel
lettin' 'em know that this life is for real
stick it in 'em, i stick it in 'em
to make 'em see
the choices that drive our disease
don't beat around the bush
bringin' me closer to here
taking me farther than near
insecure love fit commands
shovin' my face in the sand
can't you see man you're fucking up the program
you've got the score maybe you've got the hand
lost your grip now you're lying on your back
lost your head caught smokin' crack
it's all you wanted
it's all you needed
don't
don't
don't beat around the bush
