

Endo, Remember Us

REMEMBER US

Alone with my thoughts
Memories I'm with you
Are moments with God
Days that were so true
Now fall into pain
Reason escapes me
I'm only to blame
I can't see without you
Without you

Remember us
Remember us
Always forever us
Forever us
Do you remember us
Remember us

Seeing you now
Alone and without me
I've suffered somehow
I can't see through me
I'm only in pain
So lost without you
Alone and in shame
I can't see through you
Without you

Remember us
Remember us
Always forever us
Forever us
Do you remember us
Remember us

A mirror in your eyes
Remembering our lives
A mirror in your eyes
I remember

Remember us
Remember us
Always forever us
Forever us
Do you remember us
Remember us
