RUCKUS

Intermolecular structures
The cloning of lovers
Secrets and the lies that stem within
The falling of Hitler
The infamous killer
Take my soul and rape and fuck me

Take it away
Don't wait tomorrow
Open your eyes and let me in

Stop all this hatred that stands before me
Take what you want me to take inside you
Break what you want me to break before me
Take what you want
Leave me empty

Take it away
Don't wait tomorrow
Open your eyes and let me in

So you feel empty
So you feel...
Here and now
To let me in
Here and now
Someone help me

Take it away
Don't wait tomorrow
Open your eyes and let me in

Let me in
