

# Endway, Hey Babe

Hey babe, ain't nothing changed  
you'll never be mine, you'll never be mine

I went away for a while  
you can understand it but you don't care  
and I can't waste my time and i'm finishing this tonight  
I'm through with all of the lies  
and you're on your own now.  
never wanted to say these things to you,  
and now you'll take it on  
You try to be great, you try to be special  
for someone and that's the thing  
that makes me tired of just living upon it  
and isn't it strange how everything has  
come down on me to save my friends  
and no one can tell the future.

you take it on, you take it on  
and its you that won't fool me or anyone
